4. TO ALL FEDERAL EMPLOYEES AND MILITARY PERSONNEL: It is unfortunately true that in the midst of plenty there are always many in need ... that in the midst of a healthy and vibrant nation there is illness and suffering ... and it is unfortunately true that there are nations whose people have been ravaged by war and disease, many of whose children are orphans, without homes and without enough to eat.

In our American democracy we rely in large measure on voluntary health and welfare agencies to help us and our fellow men when assistance is needed to combat these ills. The agencies of your local United Fund or Community Chest, the American Red Cross, the National Health Agencies and the International Service Agencies are doing a tremendous job in alleviating pain and suffering and seeking cures, in helping the young, in providing assistance to the aged, the crippled, the hungry, and in bringing help and hope to those in overseas lands.

Once a year through the Combined Federal Campaign these voluntary agencies solicit contributions from Federal employees and members of the Armed Forces. The combined drive saves time and expense and makes possible for you to set aside in a single annual pledge, which can be paid by payroll allotment during the year if you wish, the amount of your personal contribution to the support of these vital services.

Generosity and concern for others is a proud tradition of all who serve in the United States Government. I am sure that you will want to set an example of responsible and compassionate citizenship in making your decision to support the Combined Federal Campaign this year.-- Lyndon B. JOHNSON
